Can It Rain? Sportsmen Discuss New Lights, Trap

Last Friday it rained all morning with a down pour through the noon hour. Just after 1 p.m. the rains quit and the sun came out for a beautiful afternoon. Saturday the sun shone all day and it warmed up for a good day of house cleaning or for some of the farmers to get in and combine a few beans. It might of been a little muggy underneath but overhead it was dry. Then early Sunday morning the rains came again with just a short time of sunshine about 8:30 a.m. It soon clouded up again and the heavens turned loose for the rest of the day, all night and all day Monday. Tuesday dawned cloudy again, but by noon the sun was shining, giving everyone that spark of life again. Rain gauges in the area showing around four inches of rain for the period of inclement weather.

Cars were provided as transportation for a return trip to the church. A good time was had by all.

CHS Vs Herscher

Whether the defense or offense of either team will break the game to one side or another poses an interesting and delightful question for fans from both schools. Chatsworth hopes to break the scoreless string of Forrest's tight defense, and also hopes to stop the potent passing attack of the Eskimos' senior quarterback, Randy Dempsey.

CHS Vs Herscher

Balancing a strong defense and a versatile offense, Chatsworth swept previously undefeated Herscher JV's off the field by a score of 20-0. Scoring for the Bluebird fledglings were Jerry Kurtenbach on runs of one and nineteen yards, and Gary Irwin ran 15 yards with an intercepted pass. Ron Snow and Mark Haberborn scored the extra points on a run and a pass. Chatsworth plays the Forrest JV's at Kibler Field 6:30 p.m. Monday.

NINETY-FOURTH YEAR NUMBER 7

Bluebirds Victorious In Homecoming Game

By RICHARD BRUNSKILL. Scoring early and often, Chatsworth's Bluebirds soared to a 46-6 Homecoming victory over Reddick Friday night at Kibler Field. Offense was the "Bill of Fare" in the game as the Bluebirds scored two touchdowns in each of the first three periods, and added another in the fourth quarter, while defensively giving up their first touchdown this year to Reddick on a 72-yard pass play in the second quarter. Chatsworth scores came on a six-yard plunge by Denny Kurtenbach, a 31-yard return of an intercepted pass by Mike Somers, two long passes, 58 and 56 yards, from Somers to Mark Haberborn, a 6-yard jaunt down the left sideline by freshman Jerry Kurtenbach, a one-yard dive by Somers and a 14-yard return of an intercepted pass by Mark Haberborn. The PAT's were scored on kicks by Mike Somers. After giving up their first touchdown of the year, and 110 yards to the Bulldogs in the first half (most of this on two pass plays of 72 and 28 yards), the Bluebirds' defense, which has been one of the stingiest in the area, combined to hold Reddick to MINUS 26 yards overall net for the game. The Bluebirds picked up 235 yards rushing, and found a potent passing attack as they covered 127 yards via the air route. Next week's game will be the high point of the season as the Bluebirds face the strong Forrest Eskimos on their opponents' field. The game should prove interesting as Forrest has been scored on only twice (in a 13-13 tie with a tough Gilman outfit), and Low Reed's first string defense has been unscored upon. Chatsworth has given up only one score to date.

Linda Curtis Marries Randy Mulligan Saturday

Miss Linda Curtis of Chatsworth and Randy Lee Mulligan of Onarga were married in the Onarga Christian church at 8 p.m. Saturday, Oct. 14. Rev. Niel LaFlore officiated. Parents of the bride are Mrs. Beatie Haberkorn of Chatsworth and Alvin Leon Curtis of Piper City. Parents of the bridegroom are Mrs. Adolf Hanson of Chicago and Franklin Mulligan of Gilman. Given in marriage by her father, the bride chose an off white brocade dress and coat with tan accessories. Her short veil with rhinestones was attached to a small velvet bow.

Mrs. Gloria Goldenstein of Onarga, matron of honor, wore an orange mist dress and coat with tan accessories. Mrs. Linda Ellis of Chatsworth, bridesmaid, wore a green dress with white accessories. Carl Natterstad of Onarga served as best man and Robert Green of Waseka was groomsmen.

Charlotte Unit Makes Paper Mache Pins

The Charlotte Home Extension Workshop will be held at Pontiac, Oct. 16. The "Pennies for Friendship" collection was taken. Mrs. Harold Hornickel gave the lesson on "Making Do with What You Have." The next meeting will be a breakfast at the home of Mrs. Walt Lee. This may be an all-day meeting. The afternoon was spent making paper mache pins with Mrs. Ben Saathoff instructing the group.

CIPS Makes New Policy, Rate Changes

Many residential, farm and commercial customers of Central Illinois Public Service Co. may benefit from changes in service policies and rates recently approved by the ICC, according to an announcement from the company.

A special new role is available to certain all-electric commercial and industrial customers, based on a minimum load during the summer of 20 kilowatts.

Another new policy concerns installation of underground electric distribution and service facilities for residential customers. CIPS offers to install distribution facilities underground without charge to the developer of new subdivisions with eight lots or more. Farm customers are most likely to benefit from the company's new free installation of three-phase service to residential customers operating three-phase motors totaling at least 20 horsepower or one such motor of 10 horsepower or larger.

You'll feel different about fall fertilizing come next spring.

You'll be glad you fertilized. Spring weather can keep you out of the field for days, but if you've already got most of your crop's fertilizer requirements in, there's that much more time to do other urgent things when the sun shines. Q-Plan saves you time and labor. So start turning this year's crop trash into rich soil humus and nitrogen over the winter months. We test every product and recommendation of Q-Plan to assure its workability. Its practicality. Super Q-Plan works, and works hard, to grow you a top quality, top profit crop. If a problem comes up, we're on hand with expert agronomic advice and farm services. Come next spring, you'll be glad you came in this fall.

Homemaker's News Notes

By Helen L. Sullivan
Livingston Home Advisor

Good Lighting for Home Work
To encourage good study habits, provide a well-lit home study area with an effective lamp in addition to the lighting in other areas of the room.

We suggest that you look for the following characteristics to rate the lighting in your study area:
—Light spread over the entire working surface.
—No shadows from hand or body on the work.
—No direct view of bulb or under-shade brightness.
—No glare spot of light bulb through shade.

—Light-colored, non-glossy desk surface.
—Light-colored back wall or tack board.
—Some light thrown up on walls and ceiling.
—Some general lighting else where in the room.

If you can check every item you will find your study area well-lit for studying.

A good study lamp needs to carry at least a 150-watt bulb and have proper diffusers. Light should move upward and downward and through the shade, but the source of light should not show thru the shade.

The distance from the top of the desk to the bottom of the shade should measure about 15 inches. When the user is seated, his eyes should be nearly in line with the bottom of the shade.

To be effective, pin-up lamps should be used in pairs with each shade measuring 9 to 10 inches across the bottom. When using a single wall lamp, be sure that the lower diameter of the shade is at least 15 inches and that the shade flares sharply.

Bullet, goose-neck and pole lamps make poor reading lights, because they provide only a narrow spread of light and give little or no upward light.

Good study lamps allow diffusion of light — directing light both up and down. Diffusion adapters and bowls will increase the amount and softness of light falling onto the work surface.

A small high-intensity lamp should not be used alone for reading or study. Use it to add to other lighting when you need to read fine print, do detail maps, or illustrative material work or do fine needle work or sewing.

Harris, on complaint.

The following four cases will be tried for small claims: Omer Attig vs. Raymond Underhill; Thomas Green vs. J. B. Lee, d-b-a Lee Leasing co., and Lou Wurmnest; Dale Dameron, d-b-a Dameron Plumbing and Heating, vs. Don Magee and Ervin Corrie; and John Myron Heins vs. Leonard Zelezniak and Robert Grundler.

All Business Is Local

The consumer has little knowledge of the expense and effort involved in the introduction of a new product which he casually accepts as a mark of progress.

Executive of Pilot Products Industries, Inc. recently described the immense amount of planning and cost which went into the promotion of a new cooking oil.

The company, which specializes in the introduction of new products, first had to determine if the public was fully satisfied with existing products—and why, or why not. This step called for a costly survey of representative housewives.

Next, proof had to be offered to the potential manufacturer that a product it had developed would fill a need which was not being filled. This step consisted of actually bottling the new product and distributing it to a sample of housewives for testing.

After the oil had been used under various cooking conditions, reactions from the housewives were obtained through intensive interviewing. The interviews provided information for possible modification of the product. They suggested approaches to advertising and inspired a name which was appealing and in keeping with the outstanding features of the product.

After the design of an appropriate package the long process from manufacture to final sales began. This involved advertising in trade and national media to establish a general demand for the product. The work of personal salesmen placed the product with wholesalers and retailers.

But the final test came only from the response of hometown buyers to local newspaper advertising.

TWO MINUTES WITH THE BIBLE

Melting Hearts
 Melting hearts, in Scripture, are uniformly associated with discouragement and fear. Note a few examples:
 "And he also that is valiant, whose heart is as the heart of a lion, shall utterly melt..." (II Sam. 17:10).
 "Therefore shall all hands be faint, and every man's heart shall melt" (Isa. 13:7).
 "The heart melteth and the knees smite together..." (Nah. 2:10).
 So-Christians should not pray for melted hearts! There are too many believers with melting hearts now! Indeed, men of God, down through the ages, have always found it a real task to keep the hearts of Christians from melting. Fear can easily become cowardice and cowardice, like courage, is extremely contagious. For this reason God explicitly instructed the military officers of Israel to announce to their armies:
 "What man is there that is fearful and faint-hearted? Let him go and return to his house, lest his brethren's heart faint as well as his heart" (Deut. 20:8).
 "If ever God's people needed confidence and courage it is the day of crisis—especially spiritual crisis—in which we live."
 "For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this age, against wicked spirits in the heavens" (Eph. 6:12).
 Thank God! While the opposition of our adversary during this present evil age calls for special courage and steadfastness of heart, God has made particular provision for us, for He has given us more light on His Word than those of former ages and we can meet the enemy with "the whole armor of God." Moreover we have God's Word through Paul, that battle-scarred warrior:
 "God hath not given us the spirit of fear, but of power, and of love, and of a sound mind. Do not thou therefore ashamed of the testimony of our Lord, nor of me, His prisoner: but be thou a partaker of the afflictions of the gospel according to the power of God" (II Tim. 1:7,8).

Start your next crop RIGHT now with fall fertilization.

No time like the present to fertilize. Could turn out to be another wet spring. And if, in spring, you've got to fertilize along with everything else, it'll cost you more in time and labor. Q-Plan gets the major part of your next crop's nutrient requirements on now. Frees you up for other things.

Q-Plan's fall fertilization program starts turning crop trash into rich soil humus during winter. Come spring, your soil is more than ready to grow you a strong vigorous stand.

And Q-Plan is tested. We work out every product and recommendation before we offer it to you. It works, and works hard, to grow you a top quality, top profit crop. And we're on hand with expert agronomic advice and farm services. In depth.

We'd like to tell you personally how you'll come out ahead with Super Q-Plan fall fertilization. See us.

County Receives \$22,843 As Share Of Motor Fuel Tax

Livingston county received \$22,843 as its share of motor fuel tax paid into the state treasury during September, the state Department of Finance reported.

This amount is \$1,139 more than the \$21,704 for August.

The September rebate this year brings the county's total share of motor fuel tax to \$180,223 for the first seven months as compared with \$172,513 for the same period last year.

WASHINGTON NEWS

L.C. LES ARENDS
From Congressman

ECONOMY BATTLE: It is clear to the American people if not to the President that Federal spending must be substantially reduced. We are faced with a deficit of around \$29 billion to be added to our already huge public debt. We are faced with inescapable national defense needs for our own security. No end is in sight to the extraordinary Vietnam cost. Prices continue to rise and inflationary pressures continue to mount. State and local taxes are being increased and a Federal tax rise threatens.

President Johnson insists that the Congress should adopt his recommended 10 percent surtax. The tax-writing Ways and Means Committee insists that there should first be a reduction in government expenditures. The President contends that any expenditure reduction should be made by the Congress itself. The Congress contends that he should assume the initiative by at least furnishing a list of priorities. And this is where the matter presently stands with many of us endeavoring to place a limitation on expenditures and the Administration opposing such a limitation.

To the American people it is all very frustrating and confusing. The President persists in referring to the excessive appropriations (over his budget) made by the Congress. And the Congress keeps referring to the President's excessive expenditures. The resultant confusion arises out of the difference between an "appropriation" and an "expenditure." Spending is a monetary act. Appropriation is an act of Congress. It is not directly related to what the President may spend in that year. In this fiscal year the President will be able to spend some money he has left over from appropriations Congress made in 1965. Some

The Law Serves You

A Public Service of the ILLINOIS STATE BAR ASSOCIATION

NEW GUN LAW, EFFECTIVE JULY 1, 1968, REQUIRES REGISTRATION OF GUN OWNERS

One of Illinois' new gun laws requires registration of all persons who "acquire or possess" firearms or firearm ammunition, effective July 1, 1968.

On that date and thereafter, anyone who buys or carries any firearm or ammunition without having a Firearm Owner's Identification card will be in violation of the law and subject to a fine of up to \$1,000 or imprisonment for up to one year, or both.

By "firearm" according to the Illinois State Bar Association, it meant "any device...designed to expell a projectile or projectiles by the action of an explosion, expansion of gas, or escape of gas..." The law excludes "any pneumatic gun, spring gun, or B-B gun which expels a single globular projectile not exceeding .18 inch in diameter," any safety or signaling device and devices used for firing stud cartridges, rivets or similar industrial ammunition.

Excluded from the registration requirement are United States Marshals, members of the Armed Forces or National Guard, and law enforcement officials while engaged in their official duties, and non-residents of the state provided they come under the exempt categories, such as non-resident hunters, during season, who have a non-resident hunting license.

Application for a Firearm Owner's Identification Card must be made to the State Department of Public Safety using forms to be provided by the Department at locations throughout the state. A registration card, good for five years, may be issued upon payment of a \$5 fee only to a person who meets the following requirements:

1. Is 21 years of age.
2. If under 21, has the written consent of a parent or guardian

who has a valid Firearm Owner's Identification Card and, if under 21, has never been convicted of a misdemeanor other than a traffic offense or been adjudged a delinquent.

3. Has not been convicted of a felony within the prior five years nor been confined to a penitentiary within the past five years.
4. Is not a narcotics addict.
5. Has not been a patient in a mental hospital within the past five years.
6. Is not mentally retarded.

The law provides that any parent or guardian who gives written consent for a minor child to hold a Firearm Owner's Identification Card shall be liable for any damages resulting from the minor's use of firearms or ammunition.

The Department of Public Safety is now setting up the administrative machinery necessary to implement the act and announcement will be made when it is ready to receive applications. This will be ample time for gun owners to comply with the law, the ISBA stated.

EUB, Methodist Churches Take Bus To Decatur

Twenty-eight members of the Evangelical United Brethren church and the Methodist church shared a bus trip to Decatur Sunday evening, Oct. 15. The occasion was a Celebrating Worship Service announcing the Approved Union of these two denominations. The technical legal July, 1958, at the union meeting of the two Uniting General Conferences.

The Decatur meeting was presided over by Methodist Bishop Lance Webb, and the evening speaker was Evangelical United Brethren Bishop Harold Heminger. Over 1,800 crowded the Masonic

Temple in Decatur, an overflow group of visitors sat in the nearby church and shared in the service via loud speakers. Three hundred brightly robed persons sang in the combined choirs, and a team of bell ringers from Robinson also performed. The bus load from Chatsworth left the churches at 4 and returned home again at 10:40 p.m.

Psychiatrists are physicians with a special training through which they are able to help people with mental illness or emotional problems, even as other

physicians are qualified to assist in physical illness. Often physical and mental illness are closely related. Depression or what we could call the blues, is frequently an early sign of what can become a disabling mental illness. Likewise, excitement and overactivity, although often completely normal, form an abnormal sign when they occur in the wrong place or for the wrong reason. Other suggestive symptoms include tantrums and exaggerated expressions of anger, hysterical attacks, unfounded fear, and guilt feelings which exist without an acceptable reason.

Psychiatry--- Know When To Seek Help

How does one know when he should consult a psychiatrist?

Today's Health magazine of the American Medical Association, reports that most people who should consult a psychiatrist are likely to consider themselves as someone not needing his services. Many whom the psychiatrist the AMA says, because they have the distorted concept that people who are under psychiatric care are

Burned Up By The Burners

Back in the '20's we attended the dedication of the magnificent new University of Illinois stadium, dedicated to heroic alumni who had died in World War I. Great columns were named in their honor.

In the '40's we read the casualty list of Chatsworth High school alumni, our former students, who were killed in World War II. These lads were heroes and we were proud of them.

Then this week we witnessed a nauseating scene, televised at our alma mater. A group of students and university employees, some wearing beards and long hair of the beatniks, put on a demonstration, protesting the draft, blocking the entrance to the registration or induction center, carrying the American flag upside down (a sign of distress) burning draft cards and applauding the burning.

A similar demonstration was held in London by thousands of youths marching on the American embassy. This demonstration was organized by the British Young Communist League. We wonder how many Communists or Communist-sympathizers were in the U. of I. demonstration.

In 1917 we would have called these disloyal Americans pro-Germans. In the 1940's we would have named them Nazis. Today, we aren't sure what to call them, but if the defense of the American people depends on their milk, then women and children had best arm with rocks and clubs prepared to defend themselves.

It must be terribly painful to Gold Star mothers, to disabled Vets, and to Legionnaires to witness such sickening demonstrations.

The man-on-the-street doesn't like war. He wishes we didn't have it and that the Asian conflict could be settled with an honorable peace.

Calvary Women Hold Meeting

The October meeting of the Ladies Missionary Prayer Band of the Calvary Baptist church was held last Thursday night at the home of Mrs. James Edwards.

Roll call was answered with a favorite Bible verse. The ladies decided to send a gift to the Rev. Chuck Cook family as their Christmas project this year. The Cooks are missionaries to the Philippines.

At the November meeting the ladies plan to package cookies and candy to send to Darryl Oltman, who is serving in the Army in Germany.

Plans were also made by the ladies to attend the regional meeting in Germantown on Oct. 17.

Mrs. Richard Poore, missionary to France, will be the guest speaker. Mrs. Carl Lang had the devotions for the evening.

Prayer requests and praise were then read from various missionaries' letters and a time was spent in prayer.

There's more to Wide-Tracking in a '68 Pontiac than meets the eye.

Wide-Tracking is performance.
Wide-Tracking is handling.
Wide-Tracking is security.
Wide-Tracking is one of the great American sports.

Driving a new Le Mans may be even more satisfying than looking at one. The standard engine is an Overhead Cam that delivers 175 hp from regular gas. You can order a 215-hp high-compression version. Or go up to 265- or 320-hp V-8s. See your Pontiac dealer for a test drive and learn the difference between Wide-Tracking and plain ordinary driving.

Germanville Club Sees Pictures

The Germanville club members held a dinner meeting at the Coral Cup Monday evening. Their husbands were guests for the movies afterward.

They were privileged to witness a "premiere" showing of pictures by Chatsworth Centennial's official photographer, Arthur Nether-ton. The members came away feeling that the whole town of Chatsworth had done its best in the birthday celebration.
